---

### SUMMARY

MEAN Stack Developer with hands-on internship experience shipping full-stack web applications end to end. Comfortable across the stack: MongoDB schema design, Express/Node REST APIs, and responsive Angular front ends. Built and deployed three independent full-stack projects (contactless payments, student records, e-commerce) covering auth, payments, and CRUD-heavy workflows. Looking to bring that end-to-end ownership to a product team.

---

### TECHNICAL SKILLS

**Frontend:** Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Angular Material, Bootstrap, Responsive Design

**Backend:** Node.js, Express.js, REST API Design, JWT Auth & Authorization, Middleware, CORS

**Database:** MongoDB, Mongoose, NoSQL Schema Design, Query Optimization, Indexing

**Tools:** Git, GitHub, Postman, VS Code, Antigravity, Claude Code, Lovable, Supabase

**Practices:** Agile/Scrum, MVC Architecture, Debugging & Testing, Code Review

---

### EXPERIENCE

MEAN Stack Developer Intern, Aeth Analytica Pvt.Ltd

July 2025-February-2026

- Built and maintained full-stack features across the MEAN stack, taking [X] features from spec to production during the internship.
  - Designed REST APIs consumed by the Angular front end, cutting [ADD METRIC — e.g. redundant round trips / response time] through better endpoint design.
  - Built responsive Angular/TypeScript UI components used across multiple pages/modules.
  - Optimized MongoDB queries and indexes, reducing average query time.
  - Diagnosed and resolved 100+ production bugs, improving system reliability during active sprints.
  - Worked in an Agile/Scrum team, participating in sprint planning, standups, and peer code review on GitHub.
  - Supported staging and production deployment configuration alongside senior engineers.
- 

### PROJECTS

#### QRpay – Contactless Restaurant Ordering & Payment Platform

Angular | Node.js | Express.js | MongoDB | TypeScript | REST APIs

- Built a full-stack ordering and payment platform: customers scan a table QR code, browse the menu, and pay digitally without a server needed.
- Designed REST APIs for auth, order management, and payment processing; handled [X] concurrent order flows in testing.
- Modeled MongoDB schemas for users, orders, and transactions; added input validation and error-handling middleware to prevent bad writes.

[Live demo / GitHub →](#)

#### Student Management System – Full-Stack Web Application

Angular | Node.js | Express.js | MongoDB | TypeScript | REST APIs

- Built a records platform covering student profiles, attendance tracking, and academic performance dashboards.
- Implemented CRUD REST services with Express, plus indexing strategy that kept lookups fast as records grew.
- Built Angular reporting dashboards for attendance monitoring and data entry.

**E-commerce App & Product Showcase Application – Frontend Projects**

Angular 20 | Bootstrap| TypeScript| MongoDB | Vercel |MongoDB Atlas| Render

- Developed a full-stack fashion e-commerce platform for a clothing brand with product browsing, category-based filtering, pricing, and stock management.
- Built an admin management system to add, edit, update, and mark products as sold out, enabling efficient inventory handling.
- Integrated WhatsApp-based ordering for direct customer communication and simplified order processing.
- Designed a responsive mobile-first UI inspired by modern e-commerce platforms to improve customer experience and conversion flow.
- Implemented scalable REST APIs and backend middleware for secure product and order management.

**EDUCATION**

**Bachelor of Computer Applications**

Silver Arts & Science College , Perambra

Graduated: March - 2025

---

**CERTIFICATIONS**

- MERN Stack Internship Program — ICT Academy of Kerala (Aug 2024)
- AI for Students: Build Your Own Generative AI Model — Workshop (Jun 2024)
- Developer and Technology Job Simulation — Accenture via Forage (Aug 2025)
- MEAN Stack Development Program (internal training) — Aeth Analytica Pvt. Ltd (Mar 2026)

---

**LEADERSHIP EXPERIENCE**

**College Union Fine Arts Secretary**

Silver Arts & Science College | 2025

- Organized and managed college cultural programs and artistic events.
- Coordinated teams, budgets, and event planning with faculty and student committees.
